Would you like to suggest any add-on course or skill enhancement course? If yes, Specify *

The syllabus needs to be more in sync with current requirements of the biopharmaceutical or pharmaceutical industries. It should also include non technical skills and knowledge of Quality Assurance, Regulatory requirements and IPR.

Any Other Suggestions *

The students should have hands on experience on latest techniques and instruments in order to build confidence with respect to job opportunities and skills. One should not have to go for other courses of instrumentation or non technical aspects.
