Semester V - PAPER: ECONOMICS OF AGRICULTURE AND COOPERATION - The Government of India had to roll back three farm laws in November 2021 after widespread agitation from farmers across the country ( Northern states in particular) . This being the latest and very important development , an elaborate discussion on the proposals of the said farm laws and the reason for strong resistance from farmers is suggested. [ Name of the farm laws:- (1) the Farmers' Produce Trade and Commerce (Promotion and Facilitation) Act, 2020; (2) the Farmers (Empowerment and Protection) Agreement on Price Assurance and (3) Farm Services Act, 2020, and the Essential Commodities (Amendment) Act , 2020 ] .....Semester V -PAPER: ENVIRONMENTAL ECONOMICS - An important development took place in year 2015 at Global level.. The Sustainable Development Goals (SDGs), also known as the Global Goals ( total 17 in number), were adopted by all the Member States of United Nations (U.N.) in 2015 as a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by Year 2030. These 17 goals have been further split into 169 measurable targets. The 2030 Agenda for Sustainable Development underlines a global commitment to achieving sustainable development in its three dimensions—economic, social and environmental in a balanced and integrated manner.....SEMESTER: VI - PAPER: INTERNATIONAL TRADE, POLICY AND PRACTICE - Emerging New International Economic Order- Need to also mention the role and importance of Organisation For Economic Co-operation and Development ( OECD )

An activity of a research paper writing and presenting per semester on any contemporary economic issues .

Any other suggestions \*

It is seen that hardly very few students are interested in research. So any the above activity must be given a time slot and every 2 weeks progress must be recorded and students can infact discuss where they got stuck and can seek help from Professor who are subject experts.

Certificate course like

The Chartered Economists® Program furnishes candidates with chances to build up the explanatory, analytical, functional and interpersonal skills & aptitudes vital to sound managerial decision-making in more and more complex economies and financial environment.

Any other suggestions. \*

In the current situation, Understanding the country's economy and having real issues based on it in the curriculum is very important. Therefore, it is expected to be such a course.

Yes More Mathematical concepts should be added as well as computer programming languages should be taught likes R Programming Python

Any other suggestions \*

I would suggest that along with theory subjects practical knowledge should be provided R Programming Python computer programming languages like these are helpful for the students in the long run
