Report

NSS Unit of Ramniranjan Jhunjhunwala College.

Name of the Event: Beach Clean-Up Drive.

Date: October 22, 2023.

Time: 8:00 AM to 10:00 AM.

Venue: Reti-Bandar (Mahim).

Objective of the Activity – To promote environmental awareness and preserve the coastal area at Reti-Bandar in Mahim.

Organised by :- NSS Unit of Ramniranjan Jhunjhunwala College in collaboration with Gully Classes Foundation.

UN SDG

1.SDG 14: Life Below Water: Beach clean-up drives help protect marine ecosystems by removing litter and plastic waste from beaches before they enter the ocean. By preventing marine debris, such initiatives contribute to conserving marine life, biodiversity, and the overall health of oceans and coastal areas.

2.SDG 15: Life on Land: While primarily focused on terrestrial ecosystems, Goal 15 also emphasizes the importance of combating land-based pollution and preserving habitats connected to the shoreline. Beach clean-up drives contribute to maintaining coastal ecosystems, protecting flora and fauna, and supporting sustainable land management practices.

3.SDG 12: Responsible Consumption and Production: Beach clean-up drives raise awareness about the environmental impacts of irresponsible consumption and waste generation, particularly plastic pollution. By promoting responsible consumption habits and waste reduction strategies, such initiatives support Goal 12's objective of achieving sustainable consumption and production patterns.

4.SDG 13: Climate Action: Marine debris, including plastics, contributes to climate change through processes like degradation and the release of greenhouse gases. Beach clean-up drives help mitigate these impacts by removing pollutants from coastal areas, thereby supporting climate resilience and efforts to combat climate change.

5.SDG 11: Sustainable Cities and Communities: Beach clean-up drives promote community engagement and collaboration in achieving sustainable development. By bringing together local residents, businesses, government agencies, and civil society organizations, such initiatives contribute to building cleaner, healthier, and more sustainable communities.

6.SDG 17: Partnerships for the Goals: Beach clean-up initiatives often involve partnerships between governments, NGOs, businesses, educational institutions, and local communities. Collaboration and multi-stakeholder engagement are essential for mobilizing resources, raising awareness, and implementing effective solutions to marine pollution and coastal degradation.

Brief Description: On October 22, 2023, from 8:00 AM to 10:00 AM, volunteers gathered at Reti-Bandar (Mahim) for a Beach Clean-Up Drive. They received safety equipment and enthusiastically combed the shoreline, collecting various litter, including plastic debris and glass. Waste segregation highlighted responsible disposal and recycling.

The event aimed to raise awareness about the detrimental effects of litter on marine life and ecosystems. It concluded at 11:00 AM, emphasizing the importance of responsible waste management and community involvement in preserving coastal ecosystems.

The NSS Unit is committed to environmental conservation and thanks all participants, organizers, and Gully Classes Foundation for their support. Anticipating more initiatives for a cleaner environment.
