Report

Name of the event: - Clean up drive

Organized by: - NSS unit in collaboration with BMC

Day and date: - Saturday 10th Feb 2024

Time: - 10:00 a.m. to 11:30 a.m.

Venue: - Around college premises

Objective: - To create awareness of cleanliness amongst all

Number of volunteers: 29

UN SDG

1.SDG 11: Sustainable Cities and Communities: Clean-up drives help create cleaner and more sustainable urban environments by removing waste and improving the quality of public spaces. This contributes to SDG 11's targets related to making cities inclusive, safe, resilient, and sustainable.

2.SDG 12: Responsible Consumption and Production: Clean-up drives promote responsible consumption and production by raising awareness about waste generation and the importance of reducing, reusing, and recycling materials. By cleaning up litter and waste, these initiatives encourage more sustainable consumption patterns and reduce the environmental impact of waste disposal.

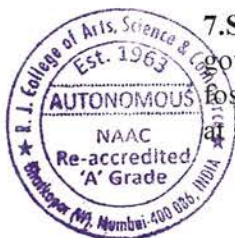

3.SDG 14: Life Below Water: Clean-up drives along coastlines and water bodies help protect marine ecosystems by removing plastic debris, fishing gear, and other pollutants that endanger marine life. This supports SDG 14's targets aimed at conserving and sustainably using marine resources and ecosystems.

4.SDG 15: Life on Land: Clean-up drives in natural habitats such as forests, parks, and wildlife reserves help preserve biodiversity and ecosystems by removing litter and waste that can harm wildlife and disrupt ecological processes. This contributes to SDG 15's targets related to conserving and restoring terrestrial ecosystems and halting biodiversity loss.

5.SDG 3: Good Health and Well-being: Clean-up drives improve public health and well-being by reducing exposure to environmental pollutants and preventing the spread of diseases associated with unsanitary conditions. By creating cleaner and safer environments, these initiatives support SDG 3's targets aimed at promoting health and preventing environmental hazards.

6.SDG 6: Clean Water and Sanitation: Clean-up drives help protect water resources by preventing pollution and contamination from entering rivers, lakes, and oceans. By removing litter and waste from water bodies and their surroundings, these initiatives contribute to SDG 6's targets related to ensuring access to clean water and sanitation for all.

7.SDG 17: Partnerships for the Goals: Clean-up drives often involve collaboration between government agencies, businesses, civil society organizations, and community groups. By fostering partnerships and collective action, these initiatives support SDG 17's targets aimed at strengthening global partnerships for sustainable development.

Brief description: - A clean-up drive, also known as a cleanup event or community clean-up, is a collective effort aimed at removing litter, debris, and other pollutants from public spaces, natural environments, or communities. These events are organized by various groups, including local governments, non-profit organizations, schools, businesses, and community groups, with the goal of improving environmental quality, enhancing public health, and fostering community pride. Here's a brief description of a clean-up drive:

1. **Planning and Organization:** The clean-up drive begins with planning and organization, where organizers identify target areas for cleanup, set goals, and determine logistics such as date, time, and supplies needed. They may collaborate with stakeholders, mobilize volunteers, and obtain necessary permits or permissions from relevant authorities.

2. **Volunteer Recruitment:** Organizers recruit volunteers from the local community, schools, businesses, and other organizations to participate in the clean-up drive. Volunteers may include individuals of all ages and backgrounds who are passionate about environmental conservation and community improvement.

3. **Preparation and Training:** Before the clean-up event, volunteers are briefed on safety guidelines, waste segregation practices, and proper handling of collected materials. Organizers provide necessary equipment and supplies such as gloves, trash bags, litter pickers, and hand sanitizers to ensure the safety and efficiency of the cleanup activities.

4. **Clean-up Activities:** On the day of the clean-up drive, volunteers gather at the designated meeting point and disperse into teams to tackle different areas or sections of the cleanup site. They work together to collect litter, debris, and other waste materials, focusing on areas such as parks, beaches, streets, riverbanks, or public spaces.

5. **Waste Disposal and Recycling:** As volunteers collect waste during the clean-up, organizers coordinate waste disposal and recycling efforts to ensure proper handling and disposal of collected materials. Depending on local regulations and facilities, recyclable materials may be separated from non-recyclables for recycling or proper disposal.

6. **Community Engagement and Awareness:** Clean-up drives often serve as opportunities to raise awareness about environmental issues, waste management practices, and the importance of keeping public spaces clean. Organizers may engage with the media, distribute educational materials, or host outreach activities to promote environmental stewardship and encourage long-term behavior change.

7. **Post-Cleanup Evaluation and Celebration:** After the clean-up activities are completed, organizers may conduct a post-cleanup evaluation to assess the impact of the event, gather feedback from volunteers, and identify areas for improvement. Volunteers may also gather for a celebration or appreciation event to recognize their efforts and celebrate the success of the clean-up drive.

Overall, clean-up drives play a vital role in promoting environmental sustainability, community engagement, and civic pride. By bringing people together to act against litter and pollution, these events contribute to creating cleaner, healthier, and more vibrant communities for present and future generations.
