OVERVIEW

The rise in the number of applicants for government jobs and PSU jobs made the old system increasingly redundant. A need to hire people with proper skills was also felt to cause functioning of governments and public-sector units. Hence, the government and public sector hiring process introduced competitive exams. Competitive exams enable job-seekers with sufficient knowledge and skills to get suitable posts in the government and private sector. These competitive exams also develop skills employers generally look for, which are used throughout your life. Competitive exams in India can roughly be divided into four modules. There are various categories under these modules. These categories depend upon the employer and nature of the job.

- Physical Fitness: Administered through medical checks at authorised hospitals and clinics.
- Mental Aptitude: Consists of psychometric tests to gauge intelligence, problem-solving skills and personality tests.
- Skills Test: Done in the form of written exams for general knowledge and skills in languages, mathematics, general knowledge and science.
