**Post Graduate Diploma in Horticulture and Landscape Gardening Syllabus Semester I & II**

**Post Graduate Diploma in Horticulture and Landscape Gardening**

**(Program Code: RJSPGDHLG)**

**Preamble:** Plants are the primary producers of an ecosystem all heterotrophs are dependent on plants for energy. Organized development of green areas to meet the needs of human in terms of food, aesthetic value, recreation, and relaxation has been done from time immemorial. Sustainable development can be ensured by growing your own produce by utilizing available resources and this will also promote the concept of reduce, recycle and reuse. Plant propagation can be achieved in many ways and a systematic approach to learn and translate it in action can open up many opportunities. With shrinking land size and limitations of resources like water rapidly emerging techniques are vertical farming and hydroponics to name a few. Technology can also be applied leading to automation of the process. The course is designed to develop skills and competences required for gardening and landscape designing for those who have previous expertise and for amateur who like to explore the avenues available in this area.

**Program Objectives and Outcomes:** This course is based on systematic teaching, learning and evaluation techniques. Quality based training and comprehensive coaching provided by experts from industries would fulfill following objectives:
