Any other suggestions

265 responses

Nope

No. Thankyou.

Need of more practical knowledge and interesting activites for studying

Don't know

Sports please

Every thing is perfect.

Not as such

The curriculum should be more consice and can me made much better..

Bring personal development subjects

I this the events should be for all the students of bms not only for rotracters . All the seniors which are rotracters they should give equal respect and response to everyone but they just give respect to rotracters or we can say most of girls so just that's it

Need to be practical

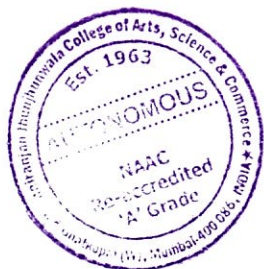

It fantastic

Thank you

Bms department lecture should arrange in morning time..... From this we will have more time to do something else other than lectures

Just keep the boys and girls buses different while traveling for an Industrial visit

Need counselling for further specialisation course in our college

The curriculum should be more practical rather than theory.

As a student of business management i think few things can be updated in curriculum/ learning process

1. Students must learn how to apply the learnings in real to achieve this students should be grouped and be given project to analyse different economy, business, sectors on basis of performance, governance, recent trend ,etc. This project must be activity based and should be done twice in a year and must be presented in front of teacher /class (some marks can be allotted to this for sake of active participation of students)
as of now we are doing too much off mugging up and writing in paper. almost 80 marks is for written test
2. Few subjects need more of a practical approach of learning rather than classroom studies and for some assessment should be based on reports and activities done by students
for eg :- commodities and derivatives as a subject wants students to learn about trading in securities market and students must be assigned activity based paper trading (profitability should be secondary thing , understanding of markets is learning in itself)

Can we have lectures from industrial experts, once or twice in month

should be more clear

Provide some practical knowledge related to industry

Should include this how to invest in modern era or how to make passive income and how to to tax

Skill enhancement course needed

NO

It was good

It was good

I would like to share you my opinion that the college should bring good teachers.

I dont know...

Everything is going in a excellent way

Theory subject is to lenthly.

Different side course program

Excellent

*

Skill enhancement course

Not for now

Along with the curriculum the practice knowledge should be aslo include by organising workshops.

There should be more practical knowledge rather than theory knowledge the institute should understand that the students need clear knowledge about the corporate world. In last year of BMS the college must take students to atleast 5 MNC and allow them learn and explore the corporate life.

College lecture time should change, because all internship job are in tha afternoon.

Ohk

Curriculum updated my knowledge and we learn from this.

Good

There should be more of practical subject

Try to increase the curriculum for the student because it help to update there knowledge

I think the curriculum needs to reduce a bit and the notes provided should hold short and crisp points. Also from the examination point of view, students should be asked to just write answers that explain the gist of the question and not just for the sole purpose writing pages and pages for long answer questions. I think a whole page of explanation for a point is for the student to understand and not to check whether they can write fast or not. I know changing the entire examination system is not easy but it's worth giving it a thought. Thank you.

Want to be the curriculum even more informative

We learnt many things from this curriculum. I would like to give suggestion i.e if you take a small class compulsory class test after each chapter would be much better for us and the other thing is if there will be some practical experience based on management than it would be great. Rest... the BMS department and the management by Selvi ma'am, Pratibha ma'am, Akash sir is best 👍

No one

No suggestions
Perfect good teaching

no suggestions has to given, Got a lot to learn, it's hard to find teachers like Bms department

It's overall good

No

Need for better students teacher interaction, Need for students personal skills growth period, last but not the least not an hectic schedules!

Curriculum should be more precise and concise

Nothing 👍

Please bring in practical knowledge and exposure for students
