

Department of Philosophy Feedback Analysis Report (2022-2023)

Report on the Feedback

What we in the Department of Philosophy can deduce from the Feedback analysis is that not a single question is rated below 50 percent. This indeed is a good sign for the Department. We need to upgrade the syllabus according to Peer Teachers and Industry persons. This we have taken quite seriously. But, the fascinating answers to the questions related to syllabus by Current Batch Students and Department Alumni have created hope in our minds that from former syllabus we have improved a lot. Most of the answers are 75% and above, that is 100%. This mattered a lot to us. The passed out students are all working on prestigious posts as teachers in philosophy or blog creator and many who are in tertiary corporate world as well. Some of the current batch students are already working and their response is that Philosophy helps them to excel in their work area. Others are quite inspired by ethics and moral philosophy that makes them upheld basic human values and bring about unity in diversity. The goal of the Department of Philosophy is to make our students moral beings with certain axiological practices in form of habit in their work place or at home. Also, acceptance of diversity and celebrating the same is also our motto. We feel in the Department we have been quite successful in this through our syllabus. Some alumni are pursuing their Degree in Law, in HR and some of them as successful lawyers and working in corporate world.

But from the feedback, the Department still needs to upgrade the syllabus that is by creating more job opportunities and creating space for the students in corporate world as well. We assure the Authorities of the College we will do our best.
