REPORT

World Oceans Day is observed internationally on the 8th of June every year. The concept was originally proposed in 1992 by Canada's International Centre for Ocean Development (ICOD) and the Ocean Institute of Canada (OIC) at the Earth Summit–UN Conference on Environment and Development (UNCED) in Rio de Janeiro, Brazil. 'World Oceans Day' was officially recognised by the United Nations in 2008. This day supports the implementation of worldwide Sustainable Development Goals and fosters public interest in the protection of the ocean and the sustainable management of its resources.

In view of the above, the Department of Zoology organised a quiz event to sensitise students towards ocean ecosystems, its importance and its pollution hazards. The objective of this activity was to create awareness for conserving the aquatic life and ocean ecosystem. The event was organised and conducted by Mrs. Sanika Gupte, Associate Professor, Department of Zoology. In all 32 students participated in this activity and all participants were issued an e-certificate.
