Department of Information Technology

Report On: TY Induction Program & SY Induction Program

Date: 14th June - 18th June 2022

The College organized an Induction program for Second year IT and Third year IT Students from 14 June,2022 They were given insight about the various courses, mode of Evaluation and various value added courses offered by the department. They were informed about the discipline specific elective to be implemented in the current academic year for the credit transfer from 120 to 132. Students were also guided on how they can add additional credit by taking part in various activities and courses hosted by the department and college by participating in Cultural activities, NSS, NCC and DLLE programs.

On 15 June 2022 and 16 June 2022 the induction program on Code of Conduct, Physical Health and Mental Health was organized for SYBSc IT and TYBSc IT respectively. Following these days till 18 June 2022 the department organized a remedial program for students by brushing up the fundamental concepts that were learnt in the previous academic year. The Remedial program was designed and conducted by the department of IT for **SY BSc IT and TY BSc IT** students to strengthen their fundamental skills in Programming, Web Technologies, Database Management, Computer Networks, Data Structure and Linux Administration. All the teachers from the IT department were involved in engaging the students from **14 June 2022 to 18 June 2022.**

Before the remedial sessions started, a test was conducted separately for SY BSc IT and TY BSc IT students to categorize them into Slow, Average and Advanced learners. Different assignments were designed for different categories of students. This remedial program was beneficial for all the students, as it helped the slow learners to relearn the basic concepts, for the average and advanced learners, it helped them to apply their knowledge in solving practical problems.
