Date: April 04, 2022

The Department of Computer science organizing Certificate Course **"Emerging Technologies in Computer Science"** for SYCS students **from 21st April 2022 to 30th April 2022**.

This course includes following Programming Languages:

1. R Programming
2. IoT and Arduino
3. Robotics
4. Computer Graphics

Students have to register on https://forms.gle/vGr2GRCcCusZ8wtUA (open till 16th April, 2022)

Note: Once the course is completed students have to submit exams and their score must be above 40% then only they can receive a certificate after completion.

Syllabus:

Course: III	**Emerging Technologies In Computer Science** **Course Code: RJSUGCS03**
Objective: To understand the different Programming Languages. **Expected Learning Outcomes:** 1) To learn about R Programming and how to use R for effective data analysis. 2) To understand the basics of arduino board and its components. 3) To understand the basics Robotics with AI and its components. 4) Interpret the mathematical foundation of the concepts of computer graphics describe the fundamentals of animations.	
Unit-I	**R Programming** Introduction to R, R Installation, RStudio IDE, R advantage and disadvantage, R Packages, List of R Packages, R Basic Syntax, R Data type, variable in R programming, R Keywords.
Unit-II	**IOT and Arduino** Iot and Basics of Arduino, Arduino Board, Installation of IDE and Power Supply, Arduino programming, Input output Devices, Interfacing IO modules
Unit-III	**Robotics** What is a Robot?, Types of Robot Control, What is Robotics?, Difference in Robot System and Other AI Program, Applications of Robotics, Robot Components, Robot Locomotion, Effectors and Actuators, Degree of freedom Locomotion, Manipulation, Sensors.
Unit-IV	**Computer Graphics** Overview of Computer Graphics, Computer graphics Applications and Software Description of some Graphics devices, Input Devices for operator, Interaction, Active and Passive Graphics Devices, Display Technologies, Cathode Ray Tube Basics, Colour CRT Raster Scan Basics, Raster and random scan display. **Scan conversion-**Digital Differential Analyzer(DDA) algorithm, Bradenham's Line drawing algorithm, Midpoint Circle drawing algorithm

Report

The Department of Computer Science has organized a Value Added Course for Undergraduate Students of all steams on "R Programming, IOT & Arduino, Robotics, Computer Graphics". The Students were Guided about the different modules available in R Programming, IOT & Arduino, Robotics, Computer Graphics and what are the future scope available in it.

The Duration of value added course is 30 hours out of which 26 online sessions are conducted and 4 sessions assigned for evaluation purposes.

Total 110 Students Participated in the course out of which 104 students are eligible for the certificate.

Objectives:

The Value Added Courses aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of students. The main objectives of the program are:

1) The objective of the R Programming module is to make students exercise the fundamentals of statistical analysis in the R environment.

2) The objective of Arduino To provide knowledge of different Smart System applications and to familiarize students with Arduino as IDE, programming language & platform.

3) The objective of Robotics understanding of how to program robots and computers that control manufacturing automation.

4) The objective of Computer Graphics includes the basic concepts of computer graphics and It provides the necessary theoretical background and demonstrates the application of computer science to graphics.
