Report on industrial visit

Venue : PARLE biscuit Pvt Ltd , Khopoli , Mumbai
Maharashtra.

Date : 30th January 2023

Briefing about the company visited

In 1929 a small company by the name of Parle products emerged in British dominated India. The intent was to spread joy and cheer to children and adults alike, all over the country with its sweets and candies. A small factory was setup in the Mumbai, to manufacture sweets and toffees. A decade later it was upgraded to manufacture biscuits as well. Since then, the Parle name has grown in all directions, won international fame, and has been sweetening people's lives all over India and abroad.

Details of industrial visit

The industrial visit to Parle biscuit Pvt. Ltd. Khopoli, Mumbai was well designed and co-ordinated, on receiving the letter of permission from Parle industries, Khopoli 40 students with faculty members went on an industrial visit to the factory on _____. We all assembled at college at 6:30 am and left the college around 7:00 am in a bus. We reached the factory at 9:30 am. An engineer in charge of production received us at the entrance and

gave a brief to the Factory. Then he took us around from one section to the next and explain the process involved in the making of the biscuits.

Then we see the different process of manufacturing:-

- 1) Mixing of the ingredients wheat flour, edible oil, skimmed milk, sugar then it goes to a dough making machine.
- 2) After molding it takes a unique shape of parle-G with its brand name embedded on it.
- 3) After that it passes through a conveyor, it is used for baking.
- 4) After baking it again passes through another level of conveyor for cooling. After cooling it is collected in sorting machine and goes for wrapping and package.
- 5) Then the packets are collected through a Chammel and sent to godown for distribution.

Description in detail

In the presentation hall, we spend around 30 minutes by watching a short video of the company which explains the various types of parle products in three levels. And in this video we learned the

Manufacturing process and upcoming products of the Parle-G.

Students were given some Parle wafers and delicious biscuits also for eating purpose.

Students and Staff reached the college premises at 8:30 p.m.

Travelling details

Students were escorted by Ms. Nandini Jagannathan, Ms. Priya Shetty, Ms. Mala Kaplani.

Our industrial visit trip is organized by Indian Odyssey. It takes around 2 hours to reach the Company of Parle-G. The bus of Indian Odyssey departed from the college premises at 7:30 am after following the protocol of send-off by principle to students and teaching staff for industrial visit and reached the company at 9:30 am.

Students feedback

Overall, the activity was highly interactive and a great learning experience for the students on the concepts related to production and operations within a manufacturing plant. The combination of learning while having fun was made possible by seeing the assembly process in person. We expressed our hearty thanks to our teachers and principal to provide such an opportunity to enhance our knowledge.

As students of banking and insurance we learned a new mechanical applications and about machines. we again express our thanks to the principal and the Faculty members who accompanied us and the officials who explained the various departments. On behalf of the upcoming academics students I request you to arrange more industrial visit for students which can practically train the students.

Conclusion

Hereby, I conclude that visiting parle products limited has been a great learning for me. The company proves to be a major leading company in the biscuits products - parle-G, monoco, magic.
