## Important Suggestions from All:

### Would you like to suggest any add-on course or skill enhancement course? If yes, Specify

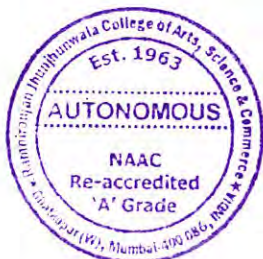

Skill development course on Terrarium can be introduced as an indoor garden development.

Skill enhancement course on Vertical wall garden which is appropriate for landscaping in urban cities.

The internship program will provide good exposure to the students to face the industry and understand the requirements in future. The course is well-designed for post-graduate level. No suggestions.

Should groom students in the first year to develop interest in the subject of botany by incorporating relevant applied topics also.

Some more part of classical botany portion can be substituted by applied subjects which will help students to select a skill development course.
