According to you is the current curriculum concise?

4 responses

Would you like to do any add-on course or skill enhancement course? If yes, Specify.

4 responses

Suggestions:

- (1) In Sem V Paper III Atomic physics unit 2, addition of Paschen Back effect would help in clearer understanding of relation between normal and anomalous Zeeman effect.
- (2) In relativity, we use twin paradox to give better understanding of time dilation but we don't do same for length contraction I think we should introduce students to Barn and Ladder Paradox (discussed in electrodynamics by Griffith). It will relativity more interesting.
- (3) Computational physics is most demanding and versatile subject. It will be better if these students are backed by deeper knowledge of any promising programming language. It can be added as add-on or elective course prior they take up this course.
- (4) Isn't crystal physics already covered in SY? I didn't find crystal physics topic of TY to be different than what we teach in SY I think Crystal defects/imperfections can be added.
- (5) In electronics more emphasis should be on the designing of circuits.

Would you like to do any add-on course or skill enhancement course? If yes, specify.

1. Yes. I would like to do skill enhancement course. As a future chemist I want to learn required industrial skills like drug formulation and development, product validation, quality control, etc.
2. Data analysis and programming course
3. Yes, communication
4. Python programming
5. Some basics of Astrophysics
6. yes for further improvement of skills
7. Yes.. I want to request the college to mandatory the sports for students. Sport is the best teacher to teach self discipline (not the one you Teachers are trying to taught us from ages)
8. Yes .eg. Dicussing problems from books like Halliday Resnick
9. Yes, programming courses
10. Yes, it will help to gain more knowledge and would help in future.

11. Yes I would like to do it will provide skill based knowledge.
12. I like any type of computer course.
13. I think Computational Physics must be added cause. It helps to understand more better.
14. IT field
15. Technical and persoality development
16. Yes, as it help to improve our skills and knowledge.
17. Human management
18. Those having it's use in future jobs
19. Yes, it is better to integrate computational physics as an add on course as it is need of the time and very much essential for the students, plus there should gradual updates in this course yearly, it should not be that students are working on out dated systems and programming languages, new systems, programming languages and new styles must be acknowledged in the framework of the curriculum.
20. I would like to prepare for some entrance during my graduation. Like IIT JAM, NET, GATE
21. Any IT based Course
22. Yes I would like to do courses for better future like Coding, web browsing, and courses related to physics which can make my grip better on my subject physics.
23. I would like to study more on Astronomy/Astrophysics related topics and work on a few projects.
24. Coding and Practical Knowledge
25. Special classes for students for informing about various competitive exams after BSc like iit jam and other...giving information about various competitive exams syllabus refrence books and tips for future to guide students towards individual goals
26. Yes, I would like to do course in photography
27. Enhance conversation skills most specifically grammatical skills which most of students lag...
28. Programming
29. Electrical Engineering
30. Yes, basics of data analytics skill used in physics research and data science
31. Programming and practical skills
32. Jam preparation training
33. Improve skill
34. Yes ITI
35. Yes. I want to learn something new on technology
36. Confidence increase
37. College should provide summer project and focus on research area also and they may add a topic like 'Astronomy' in the field of physics as nowadays students are more interested in Astronomy
38. Offline lectures
39. No, All the Courses we have been taught are self-sufficient.

40. Computer science
41. Machine learning
42. A course catered to students interested in entrance exams.
43. Yes , programming courses are always helpful
44. I would like do an enhancement course on zoology
45. No. Not decided yet. Still focusing on my undergraduate degree course.
46. Computer course
47. Computer related skills
48. An add on course based on how to write research papers would be nice.
49. Not yet decided
50. Didn't thought
51. Yesfor upsc gs4 complete subject
52. Yes, python
53. Artificial intelligence
54. Yes(for awareness of our career, how we approach , some personality development program conduct online mode for developing our skills)
55. I want to do 3D Animation
56. Lecture video should be uploded on YouTube
57. Any skill enhancing course will do.
58. Yes ,I would like to do python as a skill enhancement course
59. Chemistry practical related
60. No I don't want to add or any enhanced course
61. I would love to learn a skills like investing and sales skills
62. I would love to learn different languages and some more about technologies
63. UPSC
64. Electric basics
65. I get more time to spend with technology .
66. DLS
67. Yes I like to add on course. Programs for enhancing public speaking skills and communication skills.

Any other suggestions?

113 responses

Any other suggestions?

This pandemic has destroyed some dreams and achievement of students. So as per my request those who suffer please give them a chance..

Online lecture is not that much good

Explanation on a paper or board is more understandable than slide

No. Thank you!!!

Discard the microphone option from online lectures, any student at any time they just turn on the microphone and poke which is very irritating also it distracts others, conversation can be done with chatting even so microphone option should be removed/banned.

Robotics

Music

Please start college soon

It will be very good if possible (corona should go) to open the college.

Like we should give some good confidence to work on that

College should provide more courses in masters level as well as PhD level .

Want a feedback form about faculties too.

Personally feel that it would be nice to have shorter lectures and more assignments. Online lectures just feel like watching YouTube videos and what happens is that we understand how to do 1+1=2 but the home assignments that are given are more like 5+6

Online mode is difficult for everyone one but if online mode is possible to conduct some personality development program is good for us.

Our 6 month syllabus is being done in 3 months, so please reduce syllabus by at least 25%.

I would love to learn different languages and some more about technologies

Also as per demand of competing studies, more focus should be on working on concepts rather than just teaching them verbally, the concept should be made realised to the student than just to be taught to them, that is just half way teaching, secondly I also observed that much of syllabus is out dated and rotten, new topics and concepts have not been added to syllabus and neither there is removal of unnecessary topics that serves no purpose in the development of the student in the field.

Please start college

Please replace aged professors

Offline lectures □

Online Lectures are very bad , please enhance the lect , please take extra lect for physics jam in vacation holiday,

The Practicals that we do during online lectures felt quite unnecessary because we were not really doing that in person. Instead of that we should have been told to focus on programming skills or presenting research paper or some topic which could have helped us in increasing our skills

No suggestions

I would like to suggest for more reasoned sessions.

provide free online courses for students

Would you like to do any add-on course or skill enhancement course? If yes, Specify.

11 responses

Suggestions:

1. Practicals of each chapters should be done.
2. Must include new branches of Physics as optional course atleast Introduction to Astronomy or Quantum gravity or Application of Physics in other branches

According to you, is the current curriculum concise?

4 responses

Would you like to suggest any add-on course or skill enhancement course? If yes, Specify

responses

A course on logical reasoning, avoiding reasoning pitfalls etc. would be good addition.

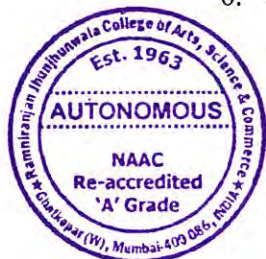

Economics.

Yes. Summer & Winter Internships in Industry.

Yes. At least Two Months of Internship in Industry.

Any other suggestion:

1. The key hope of the industry from a bachelors graduate is an ability to solve problems. The rigour with which the problem solving skills are developed in your students will determine the final value in the society at large. A curriculum is necessary but not sufficient to determine this. The on ground strategies used to teach the curriculum, and the assessment methods used are other factors. Hence my responses to most questions are "Maybe".
2. I also would like to suggest increasing the weight to the Mathematical methods course and the Statistical Physics course. These are more fundamental than some specialised ones. Please do strongly consider this.
3. The industry relevance friends on how the courses are taught and assessed. Good experimental skills supported by critical thinking developed by the theoretical courses is a good combination.
4. Additionally if a course on basics of the economic activity will be useful to develop a holistic view.
5. Setting up of Academic-Industry Cell
6. Setting up of Industry-Academic Co-ordination Cel
