# TABLE OF CONTENTS

## Unit - I

### Chapter - 1 Introduction to AI (1 - 1) to (1 - 10)

1.1	The Concept of Artificial Intelligence (AI) . . .	1 - 2
1.1.1	Introduction . . . . .	1 - 2
1.1.2	Various Definitions of AI . . . . .	1 - 2
1.1.3	The Foundation of AI . . . . .	1 - 3
1.1.4	The Strong and Weak AI . . . . .	1 - 3
1.1.4.1	Strong AI . . . . .	1 - 3
1.1.4.2	Weak AI . . . . .	1 - 4
1.1.5	What AI can do Today ? . . . . .	1 - 4
1.1.5.1	Autonomous Planning and Scheduling . . . . .	1 - 4
1.1.5.2	Game Playing . . . . .	1 - 4
1.1.5.3	Autonomous Control . . . . .	1 - 4
1.1.5.4	Diagnosis . . . . .	1 - 4
1.1.5.5	Logistic Planning . . . . .	1 - 4
1.1.5.6	Robotics . . . . .	1 - 4
1.1.5.7	Language Understanding and Problem Solving . . . . .	1 - 4
1.6	Human Vs Machine . . . . .	1 - 5
1.1.6.1	Will Machine behave exactly as Human ? . . . . .	1 - 5
1.1.6.2	Comparisons between Human and Machines . . . . .	1 - 5
1.1.7	List of Expert Systems Influential in AI Field . . . . .	1 - 5
1.2	AI Problem . . . . .	1 - 6
1.3	The Underlying Assumption . . . . .	1 - 6
1.4	What is an AI Technique ? . . . . .	1 - 7
1.5	The Level of the Model . . . . .	1 - 7
1.6	Criteria for Success . . . . .	1 - 8
1.7	Some General References . . . . .	1 - 8

1.8	One Final Word . . . . .
	Short Questions and Answers . . . . .

### Chapter - 2 Intelligent Agents (2 -

2.1	Agents and it's Environment . . . . .
2.2	The AI Terminology . . . . .
2.3	Architecture of Agent . . . . .
2.4	Schematic of AI's Agent Performing . . . . .
2.5	Role of An Agent Program . . . . .
2.6	Simple Example for Tabulation of a / . . . . .
2.7	The Weak and Strong Agent . . . . .
2.7.1	Weak Agent . . . . .
2.7.2	Strong Agent . . . . .
2.8	Rational Behaviour and Omniscience . . . . .
2.8.1	Rational Agent . . . . .
2.8.2	The Good and the Bad Agent . . . . .
2.8.3	Omniscience, Learning and Auto . . . . .
2.9	Agent and it's Environment . . . . .
2.9.1	Agent Description . . . . .
2.10	The Environments . . . . .
2.10.1	Nature of Environment . . . . .
2.10.2	Types of Task Environment . . . . .
2.10.2.1	Fully Observable Vs Partly Observable . . . . .
2.10.2.2	Deterministic Vs Stochastic . . . . .
2.10.2.3	Episodic Vs Sequential . . . . .
2.10.2.4	Static Vs Dynamic . . . . .
2.10.2.5	Discrete Vs Continuous . . . . .
2.10.2.6	Single Agent Vs Multiagent . . . . .
2.10.2.7	Complexity Comparison of Environment . . . . .
2.10.3	More Types of Task Environment . . . . .

Ghatkopar (W), Mumbai-400086.

2.11 Different Types of Agents ..... 2 - 9

2.11.1 Intelligent Agent ..... 2 - 9

2.11.2 Different Forms of Agents :  
(Types of Agents) ..... 2 - 10

2.11.2.1 Agent Type 1 ..... 2 - 10

2.11.2.2 Agent Type 2 ..... 2 - 11

2.11.2.3 Agent Type 3 ..... 2 - 12

2.11.2.4 Agent Type 4 ..... 2 - 13

2.11.3 The Learning Agent ..... 2 - 13

2.11.3.1 Components of Learning Agent .. 2 - 14

2.11.4 More Types of Agents ..... 2 - 14

2.12 Designing an Agent System ..... 2 - 15

2.12.1 The Steps in Designing an Agent ..... 2 - 15

2.12.2 Examples of Agent Types and Their PEAS  
Description According to Their Uses .... 2 - 15

2.12.3 The Detail Example of PEAS ..... 2 - 16

Short Questions and Answers..... 2 - 17

**Unit - II**

**Chapter - 3 Solving Problems by Searching  
(3 - 1) to (3 - 62)**

3.1 Problem Defining and Solving Problem..... 3 - 2

3.1.1 What is Problem Solving ? ..... 3 - 2

3.1.2 Well Defined Problems..... 3 - 2

3.1.3 Problem Formulation Types ..... 3 - 4

3.1.4 Solving the Problem ..... 3 - 4

3.1.5 Problem Solving Agents..... 3 - 5

3.1.5.1 Approach of Problem Solving  
Agent..... 3 - 5

3.1.5.2 Steps in Problem Solving ..... 3 - 5

3.1.5.3 Algorithm ..... 3 - 5

3.1.5.4 For Example ..... 3 - 6

3.2 State Space Search ..... 3 - 6

3.2.1 Construction of State Space ..... 3 - 6

3.2.2 Terminology used in Search Trees ..... 3 - 6

3.2.3 Node Representation in a Search-Tree .... 3 - 7

3.2.4 The Node Searching and Expansion  
Algorithms ..... 3 -

3.2.4.1 Algorithm Tree Search ..... 3 -

3.2.4.2 Algorithm Expand Node..... 3 -

3.2.5 Measuring Problem Solving Performance . 3 -

3.3 State Space Search Strategies ..... 3 -

3.3.1 There are 2 Basic Types of  
Search Strategies..... 3 -

3.3.2 Uninformed Search Strategies ..... 3 -

3.3.2.1 Breadth-First Search..... 3 -

3.3.2.2 Uniform Cost Search ..... 3 - 1

3.3.2.3 Depth-First Search ..... 3 - 1

3.3.2.4 DFS [Depth First Search] ..... 3 - 1

3.3.2.5 Depth-Limited Search (DLS) .... 3 - 1

3.3.2.6 Iterative-Deepening Depth-First Search  
(IDDFS) ..... 3 - 1

3.3.2.7 Bidirectional Search ..... 3 - 1

3.4 The Repeated States ..... 3 - 1

3.4.1 Avoiding Repeated States..... 3 - 1

3.4.2 Serious Problems Caused due to  
Repeated States ..... 3 - 1

3.4.3 Example of State Space that Generate  
an Exponentially Larger Search Tree .... 3 - 1

3.4.4 Algorithm that can Avoid Repeated States  
(Algorithms that Forget their History are  
Sure to Repeat the States.)..... 3 - 1

3.5 Searching with Partial Information..... 3 - 17

3.5.1 Sensorless Problems (Conformant  
Problems) ..... 3 - 17

3.5.2 Contingency Problem ..... 3 - 18

3.5.3 Extreme Case of Contingency Problem ... 3 - 18

3.6 Production System ..... 3 - 19

3.7 Issues in the Design of Search Problem ..... 3 - 19

3.7.1 Issues in Engineering Design ..... 3 - 19

3.7.1.1 Design Synthesis ..... 3 - 20

3.7.2 Issues in Design of Search Program ..... 3 - 20

3.8 AI Problem Characteristics..... 3 - 20

3.8.1 Problem Characteristics ..... 3 - 20

knowledge

5.5	Role of Game Playing in AI . . . . .	5 - 3	5.13	Games with Chance . . . . .	5 - 20
5.6	Relevance of Game Theory and Game Playing . . . . .	5 - 4	5.14	State of the Art Game Programs . . . . .	5 - 21
5.7	Game Playing . . . . .	5 - 4	<b>Short Questions and Answers . . . . .</b>		<b>5 - 22</b>
5.8	Types of Games . . . . .	5 - 4	<b>Chapter - 6 Logical Agents - Introduction to Propositional Logic</b>		
5.9	Formal Representation of a Game as a Problem . . . . .	5 - 5	<b>(6 - 1) to (6 - 32)</b>		
5.9.1	A Game is Essentially a Kind of a Search Problem ! . . . . .	5 - 5	6.1	Representation and Mappings . . . . .	6 - 2
5.9.2	Game Playing Strategies . . . . .	5 - 5	6.1.1	Introduction . . . . .	6 - 2
5.9.3	The Game Tree . . . . .	5 - 6	6.1.2	Issues in Knowledge Representation . . . . .	6 - 2
5.10	Major Components of Game Playing Program . . . . .	5 - 7	6.1.3	The Techniques of Representation and Mappings . . . . .	6 - 3
5.11	Mini-Max Algorithm . . . . .	5 - 7	6.2	Approaches to Knowledge Representation . . . . .	6 - 4
5.11.1	The Algorithm . . . . .	5 - 7	6.2.1	Inferential Knowledge . . . . .	6 - 5
5.11.2	Properties of Mini-Max . . . . .	5 - 8	6.2.2	Procedural Knowledge . . . . .	6 - 5
5.11.3	Problem Associated with Mini-Max . . . . .	5 - 8	6.2.2.1	Advantages of Procedural Knowledge . . . . .	6 - 5
5.11.4	Game Playing with Mini-Max-Tic-Tac-Toe [Noughts and Crosses] Example . . . . .	5 - 8	6.2.2.2	Disadvantages of Procedural Knowledge . . . . .	6 - 5
5.11.5	Example to show how Mini-Max Algorithm Works . . . . .	5 - 8	6.3	Propositional Logic . . . . .	6 - 12
5.11.6	The 'made-up' Games and Concept of 'ply' . . . . .	5 - 12	6.3.1	Characteristic of Propositional Logic . . . . .	6 - 12
5.11.7	Mini-Max Algorithm for Playing Multiplayer Games . . . . .	5 - 13	6.3.2	Drawbacks of Propositional Logic . . . . .	6 - 13
5.12	Alpha-Beta Pruning . . . . .	5 - 13	6.3.3	Syntax for Propositional Logic . . . . .	6 - 13
5.12.1	Motivation for $\alpha - \beta$ Pruning . . . . .	5 - 13	6.3.3.1	Propositional Calculus Sentence . . . . .	6 - 13
5.12.2	Steps in Alpha-Beta Pruning . . . . .	5 - 14	6.3.3.2	Connectives . . . . .	6 - 14
5.12.3	Alpha Cutoff . . . . .	5 - 14	6.3.3.3	Grouping of Symbols in Propositional Logic . . . . .	6 - 15
5.12.4	Beta-Cutoff . . . . .	5 - 15	6.3.3.4	Forming a Legal Sentence in Propositional Logic . . . . .	6 - 15
5.12.5	Algorithm of Alpha-Beta Pruning . . . . .	5 - 15	6.3.3.5	Formal Grammar for Propositional Logic . . . . .	6 - 15
5.12.6	Example of Alpha-Beta Pruning (Upto 3rd Ply) . . . . .	5 - 15	6.3.3.6	Inference in the Knowledge Base . . . . .	6 - 15
5.12.7	Why is it Called $\alpha - \beta$ ? . . . . .	5 - 17	6.3.4	Semantics for Propositional Logic . . . . .	6 - 16
5.12.8	Heuristic Function that can be used in Cutting Off Search . . . . .	5 - 18	6.3.4.1	Interpretation of Prepositions . . . . .	6 - 16
5.12.8.1	Evaluation Functions . . . . .	5 - 18	6.3.4.2	Computation of Truth Values . . . . .	6 - 17
5.12.8.2	Imperfect and Real-time Decisions . . . . .	5 - 18	6.3.4.3	Truth Table . . . . .	6 - 17
5.12.8.3	Cutting Off Search . . . . .	5 - 18	6.3.4.4	Validity . . . . .	6 - 18
5.12.8.4	Forward Pruning . . . . .	5 - 20	6.3.4.5	Satisfiability . . . . .	6 - 18
