Project Level Club

•The main ethos of celebrating this day is promoting the use of biodegradable, eco-friendly paper bags & as we can see it plays an important cornerstone for the near and far future generations. So by looking at the current scenario i.e. the excessive use of plastic bags, polythene, non-biodegradable storage materials has affected our environment drastically. So why not start a drive wherein we ourselves make such paper bags (literally) and motivate masses to

do the same. To raise awareness among consumers about paper carrier bags as sustainable and efficient packaging that contributes to fighting climate change and environmental pollution. The idea about the making of paper bag was initially discussed with the VP avenues and other Core team members by IS directors. The whole idea got approved by the team. Further team IS started working on the project, its PR and promotion were done in various other group on WhatsApp. Jpeg and PR message were released. A video regarding paper bag were spread amongst everyone to have an idea on how to make paper bag at home. People were made realized how important it is to use paper bag rather than plastic covers. Hence, everyone began with the preparation of paper bag at home.

SAY NO TO PLASTIC

12th July is celebrated as Paper bag day, therefore the idea of making paper bag at home arose in the mind of team IS. Every participants were informed about making paper bag at home three days prior to the Paper bag day. As we started getting the entries all the pictures were posted on the social media handle of the club on 14th July (as two more days were given). People actively participated in the event, and made paper bags at home by using all the creativity and style, decorative and attractive paper bags were designed. Not only paper bags but cloth bag were also stitched by the participants. We all are aware how important it is to protect the Environment. So, Use paper bags and ditch plastic bags to save the Mother Earth.
