Project Level Club

- In this lockdown situation people are getting bored and tensed they don't have anything much to do.
- So keeping this in mind we thought to bring a fun online game that is Housie on Tambola so that they get an opportunity to interact with other people and also enjoy the game.
- This project was open for all non-rotaractors and rotaractors as well so they can interact, play and create a bond in this situation.
- We discuss the plan with our vice president.
- First we released the PR message and JPEG in our social media handle and with that we shared the group link to everyone to join the group.
- After that we made google form for participants, through this form every participant registered themselves.
- Later we send the link of tambola to all participants for downloading the app.
- The Game started at 8:PM. Everyone was very interested to play. First we divided the participants in teams.
- There were total 10 teams and in each team there were 4 members. And people from different club and different colleges had participated in the game and they played with each other and eventually they really enjoyed playing with each other.
- This is what we really need that people enjoy each and every game even with strangers.
- We made a leader in every group so the leader's work was to coordinate with their team members, that's how the game started with super energy.
- In first round 9 participants moved for the second round.
- On day 2 at 8 PM again we divided the remaining participants in teams and there were 2 teams. From those, one team there were 5 members and second team 4 members.
- In second round 2 participants moved for 3 round, from those 2 participants, the winner was Simran.
- We rewarded her with a certificate.
