REPORT

Project Name Saving Nemo

Venue MITHI RIVER

Start Time 23-10-2021 08:00:00 End Time 23-10-2021 12:00:00

1. Rivers are a beautiful place to spend time and chill out.
2. But now-a-days rivers have turned into a dump yard.
3. Plastics, footwear, clothes are a very common thing to find at the coastline.
4. Organizing this project was to eradicate the habit of people littering at the beaches, rivers, lakes.
5. Also to indulge them in the cleanup activities so that they get an idea of how much efforts it takes to clean the environment.
6. By including more and more people in such drive will let them think twice before they throw such things in water.
7. And also they will stop others when they find them littering.
8. River cleanup drives guarantees that marine wildlife won't come in contact to these garbage.
9. By cleaning the rivers we ensure that visitors from all over the world can enjoy beaches fully.

HOW WAS THE PROJECT CARRIED OUT:

1. All met at the college at 6.30am. We took everyone's attendance for the record.
2. Then we travelled from train to the destination i.e. Mithi River.
3. The event started at 8am. Malhar introduced himself to us.
4. Then he showed us a picture of Mithi River of the year 2018 which literally looked like a dump yard.
5. We also had an organization who explained us about how dry waste can be recycled.
6. So they guided us to collect bags, footwear, clothes in different bags so that they can recycle it properly.
7. Then gloves and basket were provided to us and we started with the cleanup.
8. Also there was a NSS team of different college with us who had come for the same drive.
9. Everyone was divided in groups with 3 members and everyone was collecting the specific waste.
10. It was difficult to clean because there was so much of big cement bags deep inside the sands.
11. But we had the help of JCB to scrap the waste out which were Land filled.
12. During the cleanup we found 3 ghost net which were very heavy and mixed with clothes, plastic and other stuff.

13. We also found glass bottles broken which can be harmful for the people residing there and for marine animals.
14. Then we had to wind up the drive at 11am as we were expecting a high tide.
15. Malhar acknowledged everyone and shared the experience that how difficult it is to clean the beach. So we should think twice before throwing any waste in the beaches or rivers.
16. Lastly we had a feedback session where everyone got a chance to speak about the project and what they learnt from the project.
