Dear students,

**The Department of Lifelong Learning & Extension (DLLE)** is established on October 12, 1978 and had been recognized as a Statutory Department of the University of Mumbai since 1994 to promote a meaningful and sustained rapport between the Universities and the community. Now it is recognized as one of the Teaching Department of University of Mumbai.

The Department acts as a focal agency in the University system for all Lifelong Learning & Extension Work programmes and to provide academic and technical resource support for community based activities in collaboration with Universities, departments and colleges. The Department serves as an intellectual intervention in the community's living problems which need to overcome through an educational process. It helps to deepen the teachers' & students' knowledge through a wider exposure to real life situations through a variety of programs.

In addition to our other teaching responsibilities, the Department committed to conduct community oriented activities to **reach to unreached** sections of the society. To facilitate the sensitization of the student to the socio-cultural realities, the Department offers for the student, extension work projects encompassing social issues to develop a sense of responsibility towards society. These programs will help you to face life and its challenges with greater social commitment and thus create an ambience for a learning society. This will also enhance your employability skills & develop positive attitude towards community development work.

Hence, we anticipate investing your one hundred and twenty hours in one academic year for the welfare of the society through various activities involved in extension work. I am sure the qualities like Time Management, Decision-making, Interpersonal Relations, Leadership, Self-Confidence, Communication and Group Discussion Skills will be developed by your participation in these activities which are very much useful to become good citizen of India.

Here, I expect you to submit the brief record of hard work carried out by you to reach to unreached sections of the society. Please submit your observations, views and offer your constructive suggestions for our improvement.

- **Acknowledgement by the Student**

(Please mention the kind of support provided by DLLE Unit, Principal & Extension teachers, work place staff, community and others.)

- I am thankful to the DLLE unit & principal and mostly women who has helped me in my project.
- On 25<sup>th</sup> July 2018 for the extension activity, Seminar was held and it was taken by Sharmila Mam. She has introduced herself and then about what is Life Long Extension activity.
- Sharmila Mam has introduced us the topics and told us meaningful information what we have to do in those topics.
- The Extension teachers or Sirs for SWS topic Babu Sir and Girase Sir. And for each topic each group student manager was also given & introduced them also.
- The topics Selection was free to choose and the topics :- APY :- Anna Poorna, Ygona.

CP - causes project, SWS - Survey of women in Society,

IOP - Industry orientation project and

SM - Student manager which is only for SY or FY Students.

- **My reason for joining Extension Work Activity:**

The reason for joining Extension work activity was new things we will get to know learning, Some about laws and knowledge, and getting Self Confidence and attitude towards community development work.

- Please write about:

- How I started
- How I was trained - acquired skills
- How I built rapport with the others / community around.
- How I worked and the kind of work carried out

- ① On 29<sup>th</sup> October, 2018 our 1<sup>st</sup> term training was held and in that all the Co-ordinators, Student manager, and the Head of extension field has been present. The seminar was held for 5 hours and in those 5 hrs the whole topics has been introduced and project papers and work has been given and Sharmila mam has explained every questions and queries of every student nicely and we all have understood those topics.
- ② I built a community report by statistical page to tally the marks.
- ③ My project was about SWS - so I get an opportunities to communication with women to know them and interrogate to them and by this activity that has been possible. I got on confidence within myself that Survey can also be done by me. By these project I get a chance to change the mentality of women's and how to their voice against harassments, violence and wrong things which going around us.

- Please write about your expectations from extension work activities. Are your expectations fulfilled? Please brief.

Expectations firstly I didn't thought about there. By extension work when I started was like boring but then nice responses by others I got so I get an confidence within myself. Then I expected that common I get to know new thing. Some new like these Survey I didn't done all these before. So my expectation was fulfilled because all womens where happy by knowing their rights and many of them where lik haan bas dena hai types so the pulls me down. What is there? I am trying to help them and they are so Sudely to me.

- Please write about the difficulties you faced while conducting activities (if any):

Extension Work Activity (sws) by doing these Survey most of the difficulties com like some was not answering, Not allowed to get into house, In some house Lady's where ready to give but grandparents where not allowing, Some others coocking n all etc. So I have to do this work - I tried my best and collected data by roaming here on these. The main was time that I have to maintain because my College works and house works also was important.

- How did you overcome the difficulties?

Actually the difficulties where like firstly time problem and next that if I am free then most of them where working in house so I can't take interviews of them & in afternoon I was doing these activity so I get some of the interviews but I have to complete my Survey, so 3-4 hrs where like some times weird answers. So I get an headache how type of people's are there still. But then by I know what I have

- How did you carry out activities? Give specific project related data / experience here.)

Experience where good and bad because some people's where Literate and mostly women's are aware about their rights and laws.

I carry out my activity by working 3-4 hrs daily in that hours I feel like common by these activity I got an opportunity to communicate to others to know them, interact with them, to tell them what I know. I actually enjoyed these Survey I like to speak people and spread knowledge.

- What did you learn by Extension Activities? (gain / loss)

By these Extension Activity 'Sws'- I myself got the knowledge about the laws of women how to encourage people to do about their rights, to fight against our freedom rights because still many houses are there where Stupidity is going. Women should eat after every one is fed and many more. This is wrong, so by there activity I get to know the mentality of their home and others.

- How will Extension Work help you to contribute to the Society?

By doing this activity SWS- Survey of Women Society I get to know how may of the girls & Ladies are illerated or about the laws for women they are knowing or not. These activity has contributed me close the Society because by explaining them about what laws and what is right or wrong to them helps us that anybody can't houses women if they know properly about laws. So these Survey has contributed a big part and importance to those who are not aware about all this thing and there has became a helping hand for them.

- What do you say about improving Extension Work? (Your Experience, views, suggestions, etc.)

According to me the topics can be more interesting like IOP was good to learn and work So there type of topics for Science students are beneficial, all were good but can be better topics than these Managements leadership and Confidence gaining to my experience was good I fulfill my expectations.

- Remarks & feedback for extension work with suggestions (with illustrations if any)

Thanks all the co-ordinators and I am thankful for the department of DLLE for arranging such type of activities to encourage and enhances confidence of student and helpful for the society.
