NOTICE

Primate Worlds

A webinar is arranged on 'Primate Worlds' in collaboration with ATBS on 20th July, 2020. Our esteemed speaker is **Prof Anindya Sinha**, Dean- Academic Affairs, National Institute of Advanced Studies, Bengaluru, India. This talk is the first among the second series of Popular lectures. Primates, as a group of animals also include humans. The lecture will deal with the Ethology – scientific study of animal behaviour under natural conditions and also about the evolutionary trends observed among the Primates, especially the Macaques. The speaker with his vast experience in the field studies pertaining to the Primates will help the audience gain insight into the behavioural aspects of such wonderful group of animals. The session would remain open for the students and the staff and will also be streamed live on YouTube.

RJC Popular Lecture Series 2.1:

'Primate Worlds'

Prof. Anindya Sinha, Dean, Academic Affairs, National Institute of Advanced Studies

Dr Sinha's wide-ranging research interests are in the areas of behavioural ecology and cognitive psychology of primates, animal molecular genetics, evolutionary biology, conservation biology and the philosophy of biology. He is responsible for the discovery of a new species of primate, the Arunachal Macaque *Macaca munzala*, in Northeastern India.

Letter of Collaboration

The Association of Teachers in Biological Sciences was established in 2006 with the aim to promote excellence in the field of Biological sciences by bringing together teachers who are life long learners. It is our privilege to associate with Hindi Vidya Prachar Samiti's Ramniranjan Jhunjhunwala College this collaboration will be initially for a period of five years from 2018 to 2023 and shall extend further on mutual interest.

The Collaboration would be to conduct following activities but need not be restricted only to these any activity for the promotion of science is welcome.

1. To conduct workshop for members of teaching, non teaching staff and students
 2. To organise exhibitions for promotion of scientific temperament among school children and general public
 3. To organise career guidance sessions.
 4. To organise field trips to create awareness on biodiversity and its conservation
 5. To organise guest lectures by eminent scientists for creating awareness on recent trends in technology and thrust areas
 6. To organise seminars/ conferences
 7. To conduct interactive sessions with scientist
 8. Any other activity on mutual consent
- There will be no financial obligation on either side for any of these activities and all activities will be conducted on mutually agreeable terms

Prof Anindya Sinha

Dean- Academic Affairs, National Institute of Advanced Studies, Bengaluru, India

Dr Anindya Sinha is a distinguished and accomplished Scientist who is an excellent orator and teacher of par excellence. Apart from being Dean, Academic Affairs, NIAS, he is also adjunct professor at 6 other national and international institutions. Currently, he is also a Vice President of ATBS-Association of Teachers in Biological Sciences.

Dr Sinha completed graduation in Botany from Calcutta University and further completed his Masters Program in Cytogenetics from the same University. He then went to Tata Institute of Fundamental Research (TIFR) and acquired his PhD. His initial research was on behavioural psychology of wasps and studies on classical genetics of human diseases.

In spite of being a student of plant sciences, he has carved his own niche in animal behaviour studies which is explicitly evident from his current research interests which includes studies on Animal Behavioural Ecology, Ethology, Evolutionary Biology, Population & Behavioural genetics, urban animal studies, Philosophy of Biology, Primates and other mammals.

REPORT OF THE LECTURE UNDER R J C LECTURE SERIES CAPABILITY DEVELOPMENT AND SKILL ENHANCEMENT OF STUDENTS (AWARENESS OF TRENDS IN TECHNOLOGY)

A talk on ' Primate Worlds'- From Complex communities to Simple minds was conducted by Prof. Anindya 'Rana' Sinha online on Zoom Platform on 20th July, 2020.

Dr. Usha Mukundan, followed by Dr. Himanshu Dawda welcomed the audience and the guest speaker. Dr Purushottam Kale introduced the eminent Guest speaker to the audience.

Dr. Sinha started his talk with introducing that he has been working on Primates for almost 27 years. He informed that Biology can be studied at various levels. He informed that according to the family there are 3 broad groups of the Primates- Lorisidae –members are usually, the broad group Cercopithecidae- which consists of two groups- the Macaques- 9 species and the Langurs- 5 species and the third one called Hylobatidae consisting of Gibbons. Dr Sinha informed that when he initially started study on Primates, he was interested in studying the minds- the cognition, the evolutionary trends in the natural environment as captivity usually changes the minds. He informed that to study the minds it was important to study the communities and to study the communities it was important to study the individual minds and behaviour. He informed that he started to work on Primates in the fragmented lowland evergreen forests of the Brahmaputra valley in Assam, the smallest being about 5-6 Sq. Km in size. Over the period of 1995 to 2006 unfortunately about 3 species of Primates became extinct while the remaining 5-6 species have survived and co-existed.

He talked about the discovery or reappearance of the Arunachal Macaque – Macaca munzala, in a 35 multimale multifemale troops, with each troop size ranging from 5-35 individuals.

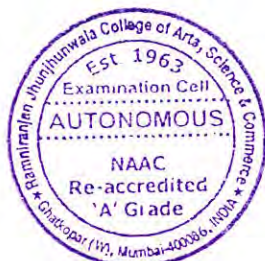

During his talk he emphasised on the following aspects, with special emphasis on the Arunachal Macaque-

1. What are the factors that have promoted such remarkable primate diversity in these lowland evergreen fragments ?
2. How have the primate species co-existed in spite of rapid degradation of their habitat ?
3. How significant is niche specialisation in promoting primate co-existence here ?
4. What is the nature of inter- species interactions among the macaques ?
5. Can we save these last primate populations ?

His talks not only generated interests but also made the minds of the audience tick in asking many questions to which Dr. Sinha answered exhaustively and lucidly.

The talk ended with the formal Vote of Thanks by the Principal, Dr Himanshu Dawda. Number of student beneficiaries from our college were 98.
