NOTICE

Giant Viruses and Their Evolutionary Origins

This lecture is arranged in collaboration with ATBS on 24th August 2020 to explain the amazing world of giant viruses. In the back drop of Covid-19 pandemic, interest in the world of these microorganisms has captured the attention of every human. The underlying mechanism of virus infection and its mutating capabilities with precise site targeting ability will be explained in the lecture. The session would remain open for the students and the staff and will be streamed live on You Tube.

RJC Popular Lecture Series 2.12:

Giant viruses and their evolutionary origins: The unknown unknown

Dr. Kiran Kondabagil, Associate Professor, Department of Biosciences and Bioengineering, IIT Bombay, Powai.

AREAS OF EXPERTISE: Evolutionary biology of large DNA viruses, molecular mechanisms of DNA replication, repair and packaging in Mimivirus, vaccinia virus, and bacteriophage λ . Environmental genomics, isolation of novel viruses.

RESEARCH DESCRIPTION: My group works on understanding the environmental ecology and evolutionary genomics of viruses, how their functional interactions dynamically alter the microbial diversity, and molecular mechanisms of their assembly. We employ a range of tools from comparative genomics to metagenomics to structural biology and biochemistry for understanding the diversity and biology of giant viruses. Recently, we showed that the viral genome packaging machinery is remarkably similar to prokaryotes machinery implying cellular origin of large DNA viruses. We have isolated and sequenced several giant viruses for the first time from India.

HONORS AND AWARDS:

- Excellence in Teaching, IIT Bombay, 2015.
- ASMCIUE - Leadership Grant for International Educators. Awarded by the American Society of Microbiology, 2016.

RESEARCH GUIDANCE:

- PhD students graduated: 7; Currently pursuing: 11; Master's thesis: 34; interns: 17

PUBLICATIONS: 47 peer-reviewed journal publications; 30+ conference presentations; several giant viral genomes contributed to NCBI database.

Letter of Collaboration

The Association of Teachers in Biological Sciences was established in 2006 with the aim to promote excellence in the field of Biological sciences by bringing together teachers who are life long learners. It is our privilege to associate with Hindi Vidya Prachar Samiti's Ramniranjan Jhunjhunwala College this collaboration will be initially for a period of five years from 2018 to 2023 and shall extend further on mutual interest.

The Collaboration would be to conduct following activities but need not be restricted only to these any activity for the promotion of science is welcome.

1. To conduct workshop for members of teaching, non teaching staff and students
 2. To organise exhibitions for promotion of scientific temperament among school children and general public
 3. To organise career guidance sessions.
 4. To organise field trips to create awareness on biodiversity and its conservation
 5. To organise guest lectures by eminent scientists for creating awareness on recent trends in technology and thrust areas
 6. To organise seminars/ conferences
 7. To conduct interactive sessions with scientist
 8. Any other activity on mutual consent
- There will be no financial obligation on either side for any of these activities and all activities will be conducted on mutually agreeable terms

Dr Kiran Kondabagil

Associate Professor, Deptment of Biosciences & Bioengineering
IIT Bombay, Powai

Dr Kiran Kondabagil is a Teacher and Researcher. HIS EXPERTISE IS IN Evolutionary Biology of large DNA viruses, molecular mechanisms of DNA replication, repair and packaging in many viruses, environmental genetics and isolation of novel viruses. Currently his lab is dedicated in genome sequencing of Covid -19.

Dr Kondabagil has isolated and sequenced several giant viruses for the first time from India and has contributed several genomes to NCBI (National Centre for Biotechnology Information). Under his guidance, 34 students have completed their MSc by research and 17 are registered with him. He has 7 PhD scholars to his credit and is currently guiding 11 students for their doctoral research work. In different research journals of national and international repute, Dr Kondabagil has 47 publications to his credit. He has also provided his expertise in coaching students for International Biology Olympiad.

Dr Kondabagil has been the recipient of several awards in his career. This includes 'Excellence in Teaching' award of IIT Bombay in 2015, Leadership brand for International Educators by the American Society of Microbiology in 2016.

REPORT OF THE LECTURE UNDER R J C LECTURE SERIES CAPABILITY DEVELOPMENT AND SKILL ENHANCEMENT OF STUDENTS (AWARENESS OF TRENDS IN TECHNOLOGY)

GIANT VIRUS AND THEIR EVOLUTIONARY ORIGINS

In the backdrop of Covid-19 pandemic, the speaker spoke about giant viruses and research pertaining to them. In the process, he shared some amazing facts about viruses and their diversity. Approximately 2,40,000 copies of ancient, old and new retroviral DNA make up 8% of our human genome of which only 15% code for protein or RNA. Mimiviruses are considered important to understand evolution of eukaryotes. He gave a comparison of all known viruses to highlight features of each virus while comparing it. He concluded his talk on Corona virus, the structure, infection ability and mutation window that the virus itself has kept open for its wide spread transmission than any other previous viruses that has caused threat to human life. The session was open to all students and staff to create awareness. The number of student beneficiaries from our college were 65. The session is available on you tube.
