Date : Saturday, July 11, 2020, Time : 1:00 P.M. to 2:00 P.M.

Resource Person : Vinita Poojari, Trainee Programmer, Medusind Solutions India Pvt. Ltd. Mumbai.

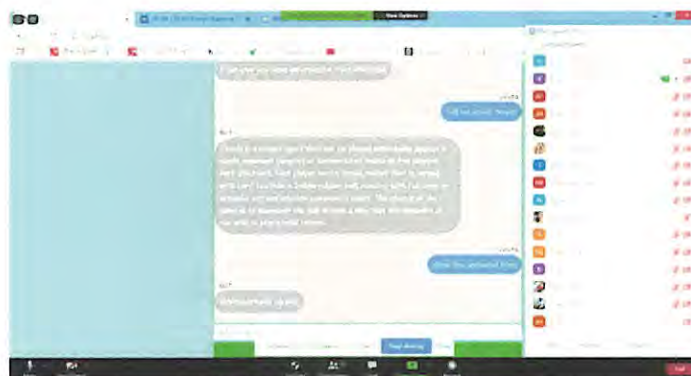

Students Benefited: MSc IT Part II, Number of students Benefited: 14

Number of Teachers Involved: 01 (Bharati Bhole)

Report

The Department of Information Technology organized an online project guidance session for MSc Part II Students on "Automata Chat". The students were guided to create the chatbot that can be used to search information on any topic using Python and NLP. Users mostly have to search the entire web in order to get some basic information about any topic. In that case they spend most of their time searching the web. So this task can be automated through a bot, where the bot can be used to search and provide for the specific information. The students were guided to retrieve the information from Wikipedia and Provide it to users through Chatbot User Interface. This will help users to save time and effort due to the human-like responses of the bot.

Tools/Languages used : Front-end – HTML and CSS, Back-end – Python and NLP, Dataset – A JSON format file intents.json, Flask - GUI

Resource Person : Shubham Mishra, Alumni.

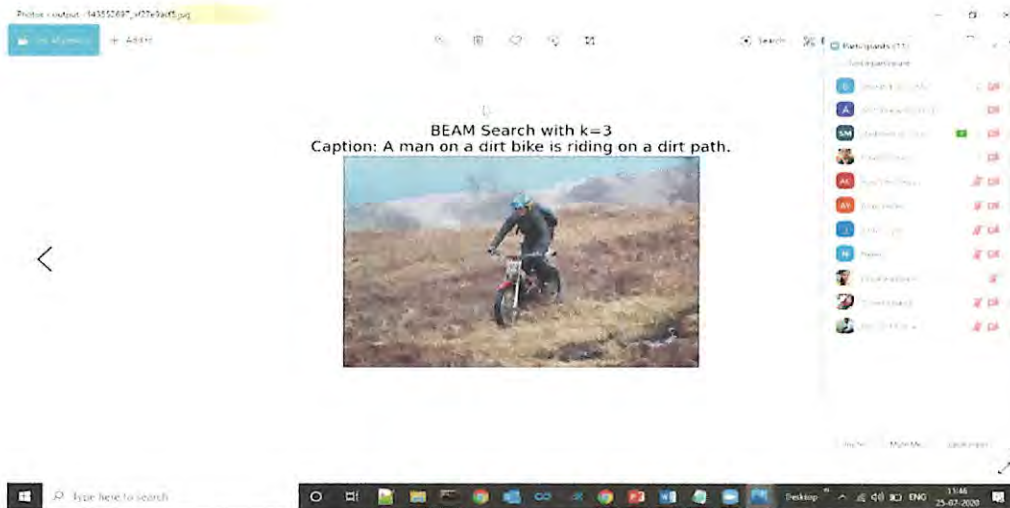

Students Benefited: MSc IT Part II, Number of students Benefited: 08

Number of Teachers Involved: 02 (Bharati Bhole, Aditi Prajapati)

Report

The Department of Information Technology has organized an online project guidance session for MSc Part II Students on "Image Captioning using RNN & CNN Model". The students were guided for building the RNN and CNN model, testing and training the model, and then using the model for captioning the given image. Here the CNN - Inception V3 model is built to identify the subcomponents of the image, understand the complete context and then to generate the caption for the given image. The RNN-LSTM model identifies the long term dependencies of the objects.

Tools/Languages/Libraries used : Python, TensorFlow, Keras, Matplot, OpenCV and Scipy, Google Collab with GPU.
