ABOUT DR. D. V. AMONKAR MEMORIAL
This competition is a part of Dr. D. V. Amonkar Memorial competition conducted annually by Botany Department of R.J. College as a tribute to our teacher Dr. Diveshkar Amonkar, fondly addressed as 'Dadi'. This competition started in 1996. Initially it had only idea presentation but now it has a mix of oral and poster competition. The competition is always a contemporary theme based touching scientific aspects of the subject. Through this program the students are encouraged to build interest regarding the subject among the peers and the fraternity, these are the platforms where students can unleash their creativity, knowledge and expression.

FIND THE THEME CLUES FOR POSTER IN THE FOLLOWING NOTE.
The whole world has been affected by the Covid-19 pandemic - we all fear for our health, that of our loved ones and also the vulnerable, in the span of just a few weeks, Covid-19 suddenly became more urgent than the risks of ongoing climate change or the stuporous decline in biodiversity. Catastrophic events that once monopolized world attention, such as fires in Australia, suddenly seemed less serious than a pandemic that would touch us all, in our own homes, however like other major epidemics (AIDS, Ebola, SARS, etc.) the emergence of the coronavirus is not unrelated to the climate and biodiversity crises we are experiencing. What do these pandemics over the years tell us about the state of biodiversity?
