Report

The objective of the competition is to make students aware of life and philosophy of Swami Vivekananda. Swami Vivekananda was one of the eminent personalities in the history of India. His work is always remembered as the big contribution to the history of India. He was an Indian Hindu monk who spent his whole life spreading the faiths and beliefs of Hinduism all around the world as well as in India. To be religious for him means leading life in such a way that we manifest our higher nature, truth, goodness and beauty, in our thoughts, words and deeds. All impulses, thoughts and actions which lead one towards this goal are naturally ennobling and harmonizing, and are ethical and moral in the truest sense. He says for the development of a balanced nation, we have to combine the dynamism and scientific attitude of the West with the spirituality of our country. The entire educational program should be so planned that it equips the youth to contribute to the material progress of the country as well as to maintaining the supreme worth of India's spiritual heritage. The Association intended through this competition to make students realize this highly philosophical and practical aspect of Swami Vivekananda's life.

11 students participated in the competition.
