'Human Values Cell'

Academic Year: 2021-22

Webinar on 'Integrating Science and Humanities- A Scientist's Reflections on the Pandemic'

October 22, 2021 (Friday)

09.00 AM to 11.00 AM

**Guest Speaker:** Dr. Prachi P. Trivedi- Research Scientist in the Department of Biochemistry and Biophysics at Texas A&M University, USA

**Venue:** Online (Zoom)

Zoom Meeting ID: 85223099702 Passcode: 12345

**Objective:**

1. To revisit Human Values which is an urgent need of the hour.
2. Students are torch bearers of the future. Resurfacing these values is beneficial not only to the students, but humanity as a whole.
3. Human Values is part and parcel of human "self-concept" and assists in "self-development".
4. Human Values, as a "guiding principle", enriches human life.
5. Human Values allows an individual to "participate" in the others' life and create an atmosphere of harmony and peace in society at large.
6. Human Values allows an individual to have a dialogue, instead of a monologue that is the cause of all the problems in the society.
7. Human Values are virtues that guide an individual to take into account the human situation – good or bad – and creates an environment – human and otherwise – a positive one.
8. List of the Participants attended the program:
9. **No. Of Attendees:** 46 (38 students and 8 Staff Members)
10. **No. of Teachers Involved:** 08 (Dr. Amita Valmiki, Ms. Sneha Deuskar, Ms. Arundhati Samir Chitre, Dr. Rina Puradkar, Mr. Steven Agnel Lobo, Ms. Punam, Ms. Mala Goplani, Ms. Priyasha Sawant)

## Report:

The last three decades witnessed a growing trend of collaborations among researchers with diverse backgrounds of training and education across world regions. The literature on the theoretical scope and benefits of such collaboration is extensive. However, there are difficulties with sufficient contact or communication within professions. Lack of confidence, lack of expertise, complexities of healthcare, the confusing nature of healthcare environments, and lack of organization and standardization can become major obstacles to successful communication. The COVID-19 pandemic represents a massive global health crisis. Because the crisis requires large-scale behaviour change and places significant psychological burdens on individuals, insights from the social and behavioural sciences can be used to help align human behaviour with the recommendations of epidemiologists and public health experts. Basic human values during the COVID-19 outbreak, perceived threat and their relationships with compliance with movement restrictions and social distancing. Personal values are broad motivational goals, reflecting what a person judges to be worthy and desirable. Personal values correlate with important social variables such as political attitudes and orientations, cooperation, and health behaviors. As a result, values have far-reaching consequences for social functioning across domains.
